

My apartment in Nairobi

A modern city life in Kenya

And what would life in Africa be without the occasional visitor to the compound. This is a Sikes Monkey.

- ✿ Let me just say again that most Kenyans do NOT live like this. This is considered to be a wealthy neighborhood and most people assume we have lots of money.
- ✿ For security reasons we can't live in most places as we would become targets and so it is necessary to live in more expensive communities.
- ✿ Plus I know that I could not live in a place that didn't have water and electricity. Could you??
